8MP WizMind Classroom Network Camera

Launched by Dahua Technology, Dahua WizMind is a full portfolio of solutions composed of project-oriented products including IPC, NVR, PTZ, XVR, Thermal and software platform which adopts industry-leading deep learning algorithms. Focusing on customer's requirements, WizMind provides precise, reliable and comprehensive AI solutions for verticals.

#### **Series Overview**

Dahua WizMind 8 Series Classroom Network Camera is specially designed for use in classrooms and examinations. It can record and play live videos of classes, and track, analyze and detect student and teacher behavior in classrooms and exams. The camera offers a wide variety of features. It can filter out non-human voices, check if teachers are on duty, and detect when students have their heads up. It can also track teachers by focusing and zooming in on them, and can zoom in on students who are standing.

#### **Functions**

### **Classroom Behavior Analysis**

With its recording and broadcasting server, the device professionally records and broadcasts teaching content, while detecting the behavior of students and teachers through deep learning algorithms. It offers two modes: Teacher mode and student mode. Teacher mode supports various types of detection, such as walking, writing on the blackboard and back turned to the students. Student mode can recognize when a student's head is up, or if they are standing, and can even provide a close-up of the student.

#### **Exam Behavior Analysis**

Adopts deep learning algorithms to accurately recognize the targets, and realizes the tracking and detection in the area. It also supports looking around and passing object detection of the students in the area.

#### **Face Recognition**

Dahua Face Recognition technology extracts the features of captured faces and compares them with that in face database to recognize the person identity.

- 8-MP 1/1.8" CMOS image sensor, low luminance, and high definition
- Outputs max. 8 MP (3840 × 2160)@25/30 fps.
- Supports Classroom Behavior Analysis, including detection of abnormal number of people (for tracking teachers), standing, writing on the blackboard, back turned to students, head up, and walking.
- Supports Exam Behavior Analysis, including detection of students looking around and passing objects between each other.
- · Sound Management: With its built-in dual MICs and Dahua noise reduction algorithms, the camera supports the sound management function, using it to collect vocals in the classroom, adaptively reduce noise, and filter non-human voices.
- Built-in Hi-Fi large-diameter speaker covers an auditory range of 30 meters when used indoors.
- · Supports two-way talk.
- · Alarm: 3 in, 2 out; audio: 1 in, 1 out; built-in dual MICs, RS-485, BNC; supports max. 256 G Micro SD card.
- 24 VAC/12 VDC/PoE power supply, 12 VDC power output, and max. current 165 mA, easy for installation.
- 5 streams for 3-channel HD video display.
- IP67 and IK10 protection.

#### Smart H.265+ & Smart H.264+

With advanced scene-adaptive rate control algorithm, Dahua smart encoding technology realizes the higher encoding efficiency than H.265 and H.264, provides high-quality video, and reduces the cost of storage and transmission.

#### Protection (IP67, IK10, Wide Voltage)

IP67: The camera passes a series of strict test on dust and soak. It has dust-proof function, and the enclosure can works normal after soaking in 1 m deep water for 30 minutes.

IK10: The enclosure can stand the punch more than 5 times from a 5 kg hammer falling from a height of 40 cm (Impact energy is 20J). Wide voltage: The camera allows ±30% (for some power supplies) input voltage tolerance (wide voltage range), and it is widely applied to outdoor environment with instable voltage.

Exam Behavior Analysis

## **Accessories**

#### Optional:

PFA773 Sun Shade

PFB211W Wall Mount

PFA156 Pole Mount

PFA101

Mount Adapter

PFB300C PFA138 Ceiling Mount Junction Box

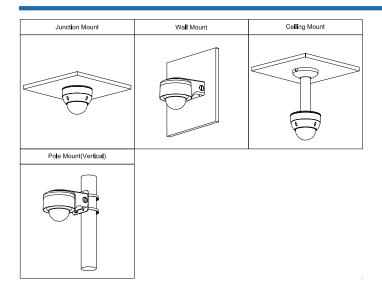

PFM320D 12 VDC 2 A Power Adapter

PFM900-E Integrated Mount Tester

TF-P100 MicroSD Memory Card
